Corporate Seretarial

Our secretarial team is dedicated to assist our clients in complying with corporate laws and regulations of the jurisdictions in which they operate, including preparation of annual returns, minutes of meetings and other statutory requirements. Our range of services also includes formation of companies, maintenance of statutory records, provision of registered office facilities, processing of share transfer and allotments, nominee services, corporate governance & risk management and liaison with other professionals on statutory requirements.

Accounting & Payroll Services

Business enterprises facing increasing global competition need to respond with agility, providing better customer service and enhanced competencies while reducing operating costs. We assist our clients in outsourcing accounting, financial administration, internal audit, financial & management reporting and payroll processing functions, offering them a compelling value proposition for improving operational efficiency and allowing them to focus human and financial resources on core capabilities and business growth.

Tax Services

Tax regulations and legislation impact significantly on business operations and decision-making in today's complex and competitive corporate environment, making effective tax planning a key component of effective corporate management. Our team of experienced tax specialists is committed to helping our clients meet their tax compliance obligations and achieve optimal tax efficiency, acting as tax advisors for business transactions and helping them to resolve tax disputes.

Corporate Advisory and Corporate Recovery & Insolvency / Restructuring

We offer our clients financial advice and implementation of customized solutions for a wide range of transactions and business sectors, including fund-raising, corporate restructuring, corporate acquisitions, divestments, project financing, valuation of shares and business, due diligence and regional business development and representation. Through associations with other financial services groups, we are positioned to offer our clients a wide range of investment banking services that complement our own core strengths.

Our Corporate Recovery and Insolvency team specializes in providing advice and solution to help rescue and rehabilitate companies that are facing corporate difficulties or liquidity problems but otherwise have viable businesses. We can, moreover, act as receivers and managers in various jurisdictions to assist our clients and as liquidators in voluntary winding-up or compulsory liquidations ordered by the Courts.

Audit and Assurance

Our clients are companies with legal obligations to have their financial statements audited. We have adopted a flexible and balanced approach to auditing, ensuring the maintenance of high professional standards required of auditors and adapting audit procedures in line with the specific needs of each assignment. Our expertise includes statutory and regulatory audit, internal audit, regulatory advice and independent validation or assessment of financial and non-financial data and associated services.
